

Name _____

Elephant's Toothpaste

Materials Hydrogen peroxide 3% (1 cup), dish soap, dried yeast (1 Tblsp)

Procedure What we did.

We mixed the liquids and
the yeast and stirred.

Observation What we saw and learned.

We saw the mixture foam
and come up and out of
the bottle.

Summary

We changed liquids into a gas
trapped in the bubbles of the
liquids.

Elephant's Toothpaste
