

Where Does Sound Come from?

Name: _____

Worksheet

What did you discover? Three ways to produce sound! Draw a picture of each one:

Vibration creates sound

A large, empty rounded rectangle with a black border, intended for drawing an example of sound produced by vibration.

Explosions produce sound

A large, empty rounded rectangle with a black border, intended for drawing an example of sound produced by explosions.

Blowing air produces sound

A large, empty rounded rectangle with a black border, intended for drawing an example of sound produced by blowing air.
